EXPERIENCE

Backend Developer (Full-time)

VCVEnglish Educational Group (<https://vcvenglish.com>)

 Feb 2023 - Current  Tehran, Iran

- Managed and coordinated development team, while serving as the lead backend developer, to deliver a secure and high-performance ASP.NET Core application with a Next.js and React frontend.
- Developed robust, role-based RESTful APIs with JWT and JWE authentication, automatic validation, standardized API responses, and Dependency Injection using Autofac.
- Utilized AutoMapper for seamless resource mapping, adhered to async/await best practices for optimal performance, and integrated ChatGPT to assist users in their learning process, Implemented interactive AI-driven text and voice chat with ChatGPT to provide users with personalized learning support.

Backend Developer (Full-time)

Gardesh International Ltd. (Nirutavan Holding Subsidiary)

 May 2021 - Dec 2022  Tehran, Iran

- Directed project management and backend development for a web application tailored to the aerospace industry, crafted specifically for Aircompany Armenia's ticket sales operations in Iran.
- Engineered and deployed a robust ticketing system with seamless integration across multiple airline systems, enhancing operational efficiency and cross-platform interoperability.
- Expertise in hybrid and cross-platform solutions, with backend skills in Node.js, Express, Nginx, and PostgreSQL for efficient, scalable applications.

Full-Stack Developer (Part-time)

VCVEnglish Educational Group (<https://vcv.ir>)

 Aug 2016 - Nov 2022  Remote

- Designed, developed, and maintained two major versions of web applications over six years, utilizing the .NET ecosystem (WebApp, MVC) and SQL Server, while overseeing deployment and CI/CD processes with Windows DevOps tools, serving over 50,000 users.
- Developed Web Applications using jQuery and Bootstrap in earlier versions to enhance the user experience across three distinct role panels.

SO FAR PROJECT EXPERIENCE

 **Online classified Ad/Listing website (<https://kichichi.co>)**
Developed a platform for Iranian migrants, using Vue.js and Nuxt.js on the frontend and Django with PostgreSQL on the backend to provide a robust solution for classified listings.

 **Scalable content distribution system in social networks (<https://github.com/API-Mate>)**
Developed an open-source, serverless web app for scheduling and distributing content across social networks (Facebook, Twitter, LinkedIn, Discord), using Nuxt.js for the frontend, Node.js for backend functions, and MongoDB for data storage.

 **Business portfolio website (<https://nirutavan.com>)**
Developed a responsive, SEO-optimized portfolio website for Nirutavan, a leading Iranian company, using Vue.js/Nuxt.js and Bootstrap, ensuring fast loading and cross-device compatibility.

EXPERTISE

.Net Core C# Sql Server SignalR
Devops Git Github CI/CD Linux
Docker Kubernetes Serverless

FAMILIAR WITH

Django/Python PostgreSQL Nginx
Javascript HTML/CSS PM2
Firebase OpenFaaS WebRTC
WebSockets NodeJS MongoDB
VueJS/NuxtJS Wordpress VOIP
BigBlueButton ESXi WHM/cPanel

EDUCATION

Master of Entrepreneurship Studies
University of Tehran

 Oct 2021 - Withdrawn

Bachelor of Computer Engineering
Amirkabir University of Tehran

 Sep 2015 - Aug 2021

Associate of Math Science
Shiroodi Elite School

 Jun 2015
